

BUSINESS IS TRANSACTED BY CITY COUNCIL

ALL MEMBERS PRESENT FOR REGULAR SESSION MONDAY NIGHT

All councilmen were present Monday evening for the first regular meeting for December. The minutes of two meetings, a special meeting of which no mention was made, were approved by the council. The special meeting was one in which they rescinded their action of approving the site on west Walnut street as a stock buying yard, which they favored at the last regular meeting. Everyone in the west end of town signed a petition asking the council not to approve their action and this was done.

The claim ordinance carried a total sum of \$2571.45, plus the special census appropriation of \$935.

Frank Wollung, milk inspector and his successor, Aaron Arnold, along with James Foster and John Slagel of the State Board of Health were present to answer questions on a Grade A milk ordinance. The ordinance was read and calls for a butterfat content of 3.8 and will cost the milk processors \$20 per month per milk hauling truck and four cents per 100 lbs. of milk for processing. This will include the area within four miles of Greencastle, over which the city has jurisdiction.

Ralph Crousore was present, representing the people living in the Kentwood Addition. He was protesting the annexing of that section. Eleven residents signed the remonstrance, saying they wanted sewers etc., before the ordinance was passed and would not object. This was denied them by the council, due to the set-up of the law. It came as a surprise to the council that garbage is being collected in this area.

It was also announced that the Planning Commission will meet on December 18.

The last discussion came up on the township fire protection. Robert Gould, and Trustee Frazier were present for the discussion. It was learned that in 1955 the law was changed so that the city is not taxed as much as the township for fire protection for the township, as has been done here. The cost after January 1, will be determined later this week, and will be determined by the cost of two men and what other costs are added to the township fire bill. The township has had 20 calls in 1956. It was also explained that close to one hundred new homes have been built in the township within the past year and there is more to protect than ever before.

Poland Reports Anti-Red Riots

WARSAW (UP)—Hundreds of Polish students clashed with police and troops in anti-Soviet demonstrations Monday night in the western Polish city of Stettin, Radio Warsaw said today.

The students smashed windows in the Soviet consulate, tried to force their way into the building and overturned streetcars as barricades as they beat off workers militia units called to quell the riots.

Warsaw Radio said army troops finally were sent into the battle to put down the demonstrations.

Warsaw Radio said the youths were "hooligans" and that they struck to the accompaniment of drunken singing and provocative shouts.

But a later broadcast admitted the street brawl reached the dimensions of a "mass demonstration" against the Soviet Union.

Handley Terms Budget 'Fantastic'

INDIANAPOLIS, (UP)—Gov. elect Harold W. Handley said today Indiana's proposed budget calls for "fantastic" expenditures the next two years and if allowed to stand would leave the state "bankrupt."

Handley told a meeting of the Legislative Advisory Commission a newly-revised figure for the budget given him by Budget Director Robert King is \$790,084,813.

"Now if the Legislature adopts this amazing budget as proposed, it will take all of the estimated revenue from all present sources," Handley said. "It will entirely wipe out the free balance in the state treasury, which the budget committee itself estimates at only 38 million dollars as of next June 30, and it would require at least \$38,500,000 in taxes."

Handley repeated his previous stand for repeal of the 15-cent (Continued on Page Five)

Hungary Stages Walkout At U. N.

UNITED NATIONS, N. Y. — (UP)—Puppet Hungary walked out of the United Nations General Assembly today it said it would stay out until the Hungarian question is taken off the agenda.

Imre Horvath, foreign minister of the Russian-supported Budapest regime, led his entire delegation out of the assembly at the start of this morning's session after a brief statement from the rostrum.

The assembly was debating a resolution support by the United States and 18 other countries which would condemn Russia for its brutal suppression of the Hungarian revolt and call on the Soviet Union to get its troops out of Hungary under U. N. observation.

Horvath told the assembly its "continued efforts to intervene in the internal affairs" of his country was "incompatible with the sovereignty" of Hungary.

"The Hungarian delegation," he said, "came here to discuss fundamental international problems."

SNOW, FRIGID CANADIAN AIR MOVING EAST

MIDDLE WEST IS DUE FOR NEW COLD WAVE AND SNOW

By United Press

A wind-whipped storm kicked up blizzard conditions in parts of the Dakotas and Minnesota today and drew a fresh wave of frigid air into the north central states.

Weathermen warned temperatures will fall to cold wave proportions in Michigan, Wisconsin, Iowa, portions of Minnesota, North and South Dakota, Wyoming and Nebraska as the cold Canadian air mass moves south-eastward during the day.

Winds up to 90 miles per hour buffeted the Midwest and the Northern Plains, choking highways with drifting snow and causing some wind damage.

The storm is the same one blamed in the crash of a Trans-Canadian airliner which went down with 62 persons aboard during a blizzard about 100 miles from Vancouver, B. C.

In the far West, a Greyhound express bus plunged off a highway south of Albany, Ore., during a heavy rain storm, injuring at least 20 persons. Authorities said a car pulled into the path of the bus, forcing it into a ditch.

At Livingston, Mont., winds were clocked at 90 miles per hour, and gusts of 40 miles per hour were common in the Midwest. The tower of a 1,250-foot television antenna under construction was blown down at Cedar Rapids, Iowa.

Rain, freezing rain and snow pelted an area from South Dakota through upper Michigan, already glazed by a treacherous coating of ice and snow.

Featured will be three of Professor Inglis' favorite works—the Final from Shostakovich's Fifth Symphony, portions of Suite Française by Milhaud, and "Nimrod" from Elgar's Variations on an Original Theme.

Also programmed are compositions by Peter Mennin, Richard Rodgers, and Paul Whelan, a DePauw alumnus and director of band and orchestra at Mount Union College.

Gov. Craig Saves Two From Death

INDIANAPOLIS (UP) — The death sentences of two convicted killers, one the first woman ever sentenced to death in Indiana, were commuted late Monday by Governor Craig.

The killers are Mrs. Opal Collins, 25, Hammond, who admitted shooting to death her paraplegic husband, his mother and two sisters, and Elmer J. Flowers, 44, Terre Haute, convicted of slaying his estranged wife.

Both were scheduled to die in the State Prison electric chair at

Michigan City, Feb. 15.

In other cases of commutation of death sentences all legal recourse had been exhausted, but Flowers and Mrs. Collins' appeals were pending.

Craig ordered Flowers removed from death row at the State Prison. Mrs. Collins, who had been sentenced for slaying one of the girls, already was given the same treatment as other women "lifers" at the State Women's Prison here.

Rooted and grounded in love.— Eph. 3:17. There is no fiercer love than a mother's love, and in the higher orders of creation a father's love is almost equally absorbing. God has that kind of love for his children, our lives suffer if we repudiate that love.

PAY SCANT ATTENTION

ATLANTA (UP) — Southern state officials gave scant attention today to Atty. Gen. Herbert Brownell Jr.'s bid for "voluntary" integration of common carriers.

Interest appeared riveted instead in the future on the time when the first actual step is tried. Until then most of the segregated South seemed prepared to stand pat.

In Montgomery, Ala., where the test case originated, city officials said they will obey the law but Alabama's Public Service Commissioner C. C. Jack Owen says he has a plan for circumventing the decision.

Mississippi's top officials had previously said Brownell cannot overthrow their segregation laws. The Brownell policy apparently caused no change in official attitudes in Virginia, the Carolinas

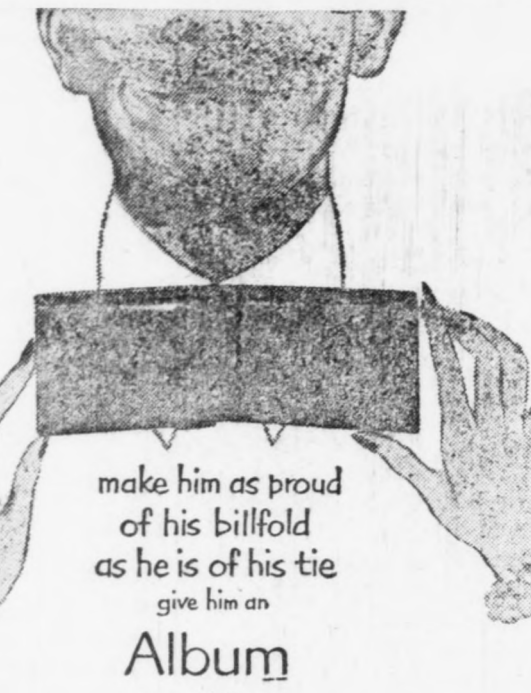

or Georgia. In North Carolina alone integration is tacitly allowed, but it is rare in practice.

"My name is Randolph," a tall middle-aged man said. "I'd like to buy an auto insurance policy."

"Fine," I replied, "but first tell me a little more. Have you ever had a cancellation of an auto policy?"

"Yes," he said, "but it was unjustified. I'm a careful driver. I had by insurance with an outfit that promised to save me a lot of money. I had a tire stolen and a windshield replaced. No accidents. Then one day, another car came through a stop sign and crashed into mine. He had no insurance so my company had to fix up my car. Now they've cancelled my policy because of 'unfavorable loss experience.' Yet, I've been careful right along."

We investigated and learned Mr. Randolph's story was true. Our company supplied new auto insurance. Under different circumstances, perhaps they wouldn't. This story illustrates the importance of having a good auto insurance company. If you are attracted solely by price, you may find your policy cancelled after an accident—even if you are a careful driver. Once you lose the "careful" designation, it affects your ability to get insurance in the future.

Why not be safe—place your auto insurance with us. We'll place it in a company that will place it with you.

IN MEMORY

In loving memory of our son and brother, Jesse Minnick, who passed away 9 years ago, Dec. 11, 1947.

This date recalls sad memories. Seems twice as long to us Only God knows how much we miss him

For he meant so much to us. Though his smile is gone forever And his face we cannot touch We still have sweet memories of the one we loved so much.

The shock that we received that day will always with us dwell Do not ask if we miss him for there's such a vacant place. Oft we think we hear his foot-steps, or see his smiling face, And at night when all is quiet, And sleep forsakes our eyes our thoughts are in a lonely grave where our dear boy lies

A happy home we once enjoyed How sweet the memory still But death has left a loneliness This world can never fill. No more can I see you coming through the yard, no more can I hear the back door slam

Nor hear your sweet voice say Where are you Mom? Our eyes are still full of tears, Jack, and our hearts still yearn for you.

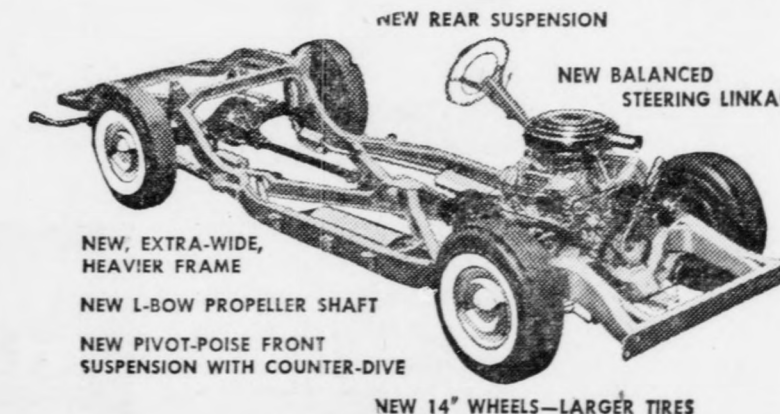

In everything we do We think of you and miss you So maybe God will send this message to you.

Sadly missed by Mother, Dad, Brothers and Sisters. pd

IN MEMORY

In memory of our father and grandfather, Harvey Bettis, who passed away Dec. 11th, 1956. There is a stream we all must cross,

The river of human years,
Now lying calm in the summer light,
Now splashed with the rain of tears.
Out from the hill of God it flows,
And on to the shoreless sea
Where the noontide sun no shadow throws,
And time is eternity.
And Pop waits at the gate of that city beyond,
In the land that is fairer than day
He waits for us all to join him there,
When the mist has cleared away.

Nationwide Dope Ring Is Cracked

CHICAGO (UP)—Eight persons seized in a million dollar narcotics raid, largest in Chicago history, were questioned today by police who believed the arrests smashed a nationwide narcotics ring.

Among those arrested in the raid Monday night on two south side apartments was Willard Jones, 42, a city garbage truck driver, described by police as the ringleader.

Confiscated were 15 pounds of almost pure heroin and 2 pounds of marijuana, said to be worth about one million dollars on the retail market. Equipment for "cutting" the drugs also was found, police said.

Capt. Joseph Healy of the narcotics squad, who directed the raid, said authorities had worked on the case for "three weeks," questioning informers and addicts.

Authorities refused to discuss a national tieup with the raid

Old Gold Stops St. Joe, 78-54

Cal Luther's DePauw five earned its second straight ICC win last night in Collegeville by routing St. Joseph's, 78-54. The Bengals threw a tight defense at the Pumas and were never threatened, piling up an early lead which stretched to 45-36 at halftime.

Forward Tom Johnson topped the scoring with 22 points, including 10 of 11 at the free throw line, and got support from Bob Schrier with 18 and John Bunnell with 10.

Shooting .393 from the field and hitting nine of 21 shots in the second half, DePauw posted its third victory in four 1956-57 starts.

One of the state's top defensive units, the Old Gold now has held its opponents to an average of 62 points a game, and the team has an offensive mark of 73.5.

Top point-maker for the Pumas, who failed to mount a sustained offense and were harried by the Tiger defenders throughout the game, was Bill Lewis with 17.

Missing from the DePauw lineup was 6-7 center Chuck Cleaver, injured against Ball State and replaced by 6-5 Sam Ulmer.

The exciting Ford Fairlane 500 Club Victoria (above)—over 17 feet long—is one of two new, bigger Ford sizes this year.

If you think it looks new...
wait till you drive it!

...For there's where Ford's newness really pays off
...in melting mountains...in smoothing the bumps
...in straightening the curves

You can see that Ford's longer, lower Sculptured Look makes other cars look downright old-fashioned. But the part you can't see—the new "Inner Ford"—is what shows its stuff when you drive a Ford. It's revolutionary from the wheels up! And it feels it

Ford's wider frame lets you sit sweet and low. And Ford's new front suspension, rear springs and new easy handling are part of the scheme to make you think every road is cloud-smooth.

The magic touch of the new Ford power plants makes mountains disappear. What looks like uphill feels like downhill. You get this surging power in a wide choice of Silver Anniversary V-8 engines. Or choose Ford's Mileage Maker Six, the most powerful Six in the low-price field.

There's magic in Ford's price tag, too! You won't believe this big new Ford is still priced Ford-low. But it is. Come in and test its magic. It's a real "Wizard of Ah-h-h-h's!"

Why don't all Hoosiers
have the same God-Given
right to work?

You should! But in INDIANA employees are being denied this right.

Union contracts in many industries dictate that in order to work you must join the union.

You face this vital question: Is it right, and American, for you to be compelled to join a union to earn your livelihood?

To protect your individual FREEDOM OF CHOICE . . . to join or not to join a union—an INDIANA RIGHT TO WORK LAW is needed.

Just such a law will be considered by the 1957 session of the Indiana Legislature. Your legislators can guarantee your fundamental, basic, American right of Free Choice by voting for this bill.

Are you aware of the dangers of compulsory union membership to yourself and family? Do you want the protection of a RIGHT TO WORK LAW? Then drop a card to your local state legislators or talk to them at your earliest opportunity.

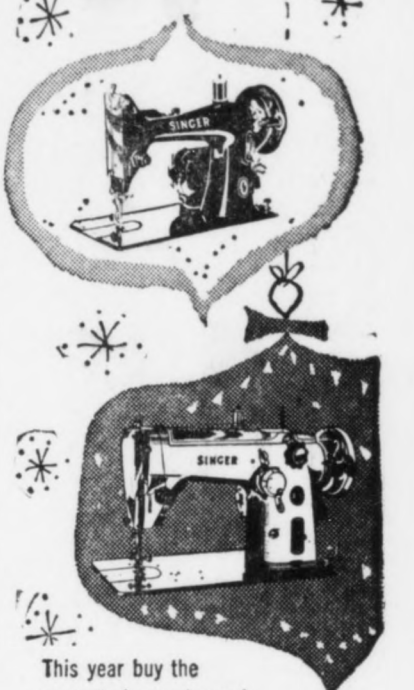

What "RIGHT TO WORK" means

- Right to Work involves a single issue . . . compulsory membership in any union.
- Right to Work guarantees Freedom of Choice . . . to join or not to join a union.
- Right to Work does not interfere with the right of employees to organize and bargain collectively.
- Right to Work is the American Way

THE INDIANA RIGHT TO WORK COMMITTEE, INC. • 8 East Market, Indianapolis 4, Indiana

The single purpose of the Indiana RIGHT TO WORK Committee is enactment of a RIGHT TO WORK LAW to protect the right of all Hoosiers to join or not to join a union as they see fit.
